

Indelco: Kitting

Indelco offers custom kitting and hose assembly solutions for OEMs, MRO buyers, and project-based builds. We help streamline procurement and reduce downtime by packaging everything you need into a single, easy-to-deploy solution.

KITTING SERVICES

- **Packaged Builds:** All required parts grouped into a single SKU or kit, clearly labeled and assembled.
- **Custom Hardware Kits:** Fasteners, gaskets, fittings, and more—ready for job-site deployment.
- **MRO Restock Kits:** Replenishable kits for recurring maintenance and production needs.

HOSE ASSEMBLY SERVICES

- **Custom Hose Fabrication:** Sanitary, chemical, or industrial hose types available.
- **Testing & Quality Control:** Crimping, pressure testing, and traceable labeling for compliance and safety.
- **Supported Brands:** Including Saint-Gobain, Watson Marlow, and Purity One.

Why Choose Kitting?

- Save time and reduce assembly labor
- Eliminate picking and staging errors
- Ensure consistency across installations
- Improve inventory management and replenishment

Whether you need 10 or 10,000 kits, Indelco supports your operations with speed, precision, and customization.
